

K-POP

K-POP: the feminine side of comfort.

Sporty, colorful and with a technological soul. Those are K-POP: **the new safety shoes of the Kaptiv line designed to protect working women.**

K-POP safety footwear stands out for its style and performance. They are beautiful to look at and comfortable to wear, bold, safe and resistant.

Dynamic comfort.

Dynamic comfort. The K-POPs are designed to guarantee dynamic comfort, thanks to the patented **i-daptive®** variable geometry system, which changes position according to the work and the type of terrain.

1
Energy absorption

2
Energy dissipation

3
Restitution of the right amount of energy

4
Foot stabilization

Fresh and dry feet.

The K-POPs are equipped with **Dry'n Air®** technology: the system of channels and holes that ensures an exclusive sensation of freshness. An effect amplified by the upper in highly breathable multilayer fabric.
